

Legend		Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Poster Viewing Sessions
			Social Events	Education Workshops	Wellness
<b>Tuesday, 3 June 2025</b>					
Time Slot	Duration	Plenary Hall (Meeting Room 1C)	Parallel Hall 1 (Meeting Room 2A)	Parallel Hall 2 (Meeting Room 2B)	Parallel Hall 3 (Meeting Room 2C)
09:30 - 16:30			09:30 - 16:30 Education Workshop 1: Opioids in clinical practice	09:30 - 16:30 Education Workshop 2: Unlock the future of pain management with lifestyle medicine: A transformative workshop for clinicians	10:00 - 16:30 Education Workshop 3: Comprehensive hands-on workshop: Ultrasound-guided neck and shoulder pain management
16:00 - 17:00	60	Comfort Break before Conference Starts			
17:00 - 17:20	20	Opening Ceremony			
17:20 - 18:20	60	Plenary Session 1 Pain Science education - a public health approach, <i>Cormac Ryan</i> UK and global impact of pain and implications for pain management, <i>Danielle van der Windt</i>			
18:20 - 19:30	60	Welcome Reception			

<b>Wednesday, 4 June 2025</b>					
Time Slot	Duration	Plenary Hall (Meeting Room 1C)	Parallel Hall 1 (Meeting Room 2A)	Parallel Hall 2 (Meeting Room 2B)	Parallel Hall 3 (Meeting Room 2C)
08:00 - 08:30	30	Wellness			
08:30 - 08:45	15	Comfort Break			
08:45 - 09:25	40	Plenary Session 2 BPS Lecture: Acute pain and opioids: where have we been and where are we going? <i>Jane Quinlan</i>			
09:25 - 09:30	5	Comfort Room Change Break			
09:30 - 10:30	60	Best Abstract Prize Presentations The Chronic High Impact Pain Project (CHIPP): prevalence and socio-demographic variation of high- impact chronic pain in the UK Biobank, <i>Charlotte Woolley</i> Effects of pharmacological and non-pharmacological interventions to improve sleep quality for people with fibromyalgia: a network meta-analysis, <i>Jemma Hudson</i> Understanding healthcare professionals' experiences and perceived competencies for pain management in people with haemophilia - a qualitative study, <i>Paul McLaughlin</i> "Clinically Quirky": Exploring the Lived Experiences of Neurodivergent Individuals with Fibromyalgia: A Qualitative Study, <i>Lauren Wilkinson</i> A summary of pain and psychosocial factors: Exploring data from the Avon Longitudinal Study of Parents and Children, <i>Hannah Sallis</i>			
10:30 - 10:50	20	Coffee Break			
10:50 - 12:00	70	Parallel Session A1 Future Technologies for Chronic Pain Chair: Ben Seymour  Future technologies: rehabilitation methodologies, <i>Helen Dawes</i> Future technologies: engineering considerations, <i>Alexandra Vuckovic</i> Using immersive virtual reality to deliver restorative nature-based interventions for chronic pain, <i>Sam Hughes</i>	Parallel Session A2 Unpacking self-identity in pain: New psychological insights into pain-related distress and suffering Chair: <i>Tamar Pincus</i>  Pain distress: constructing a pragmatic model from theory and evidence, <i>Tamar Pincus</i> 'Acceptance and reactivation': understanding how to reduce distress related to pain, <i>Hollie Birkinshaw</i> Mental defeat as a window to pain-related suffering: A network analysis, <i>Nicole Tang</i>	Parallel Session A3 Is there a problem with pain research? Understanding the dark to see the light. Chair: <i>Paul Farquhar-Smith</i>  Fragility and fabrication in research, <i>Emma Fisher</i> 'Lies, damn lies, and statistics', <i>Paul Farquhar-Smith</i> Medical publishing, an interesting conflict, <i>John Schutzer-Weissmann</i>	Parallel Session A4 Neuroimmune basis of pain in rheumatic disease Chair: <i>Shafaq Sikandar</i>  Painful Conditions in Translation – Insights from Antibody Transfer Studies, <i>Camilla Svensson</i> Pain Under Immune Control: Inhibitory receptors and Macrophages, <i>Niels Eijkelkamp</i> The mechanistic basis of neutrophil-mediated chronic widespread pain in fibromyalgia syndrome, <i>Shafaq Sikandar</i>
12:00 - 13:15	75	Industry Satellite Symposia 1 (12:15 - 13:15)	Guided Poster Walk 1		
13:15 - 14:45	90	Industry Satellite Symposia 2 (13:30 - 14:30)	Lunch Break		
14:45 - 15:45	60	Plenary Session 3 Managing acute &/or chronic pain after combat injuries and for veterans, <i>Harriet Kemp</i> Blast injuries in Children, <i>Emma Fisher</i>			
15:45 - 15:50	5	Comfort Room Change Break			

**58th Annual Scientific Meeting of the British Pain Society (BPS ASM 2025)**  
**3 - 5 June 2025**  
**PRELIMINARY SCIENTIFIC PROGRAMME**

Legend		Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Poster Viewing Sessions
			Social Events	Education Workshops	Wellness
15:50 - 17:00	70	<p><b>Parallel Session B1</b>  <b>Capturing multiple experiential dimensions of chronic pain: Lessons on leveraging wearables, self-report, and ethnography in natural environments</b>  <i>Chair: Diego Vitali</i></p> <p>Decoding personal pain patterns using real-time data capture in daily life, <b>Diego Vitali</b></p> <p>Through each other's eyes: use of synchronized wearable 'headcams' and emotional expression coding to understand human-interactions, <b>Rebecca Pearson</b></p> <p>An ethnographic approach to understanding the social influence on chronic pain in the context of everyday life routines, <b>Samantha L Stone</b></p>	<p><b>Parallel Session B2</b>  <b>A personalised and multi-disciplinary approach to supporting patients with chronic musculoskeletal pain in primary care</b>  <i>Chair: Kalwant Sahota</i></p> <p>A model for supporting people with chronic pain in primary care, <b>Benjamin Ellis</b></p> <p>Outcomes of an implementation pilot, <b>Jen Pearson</b></p> <p>Health and wellbeing coaching in supporting people with complex chronic pain, <b>Phoebe Williams</b></p>	<p><b>Parallel Session B3</b>  <b>Challenges in Pain Medications</b>  <i>Chair: Devjit Srivastava</i></p> <p>Efficacy of pain medications, <b>A Shetty</b></p> <p>Quality prescribing in pain, <b>Roger Knaggs</b></p> <p>Prescribing challenges for pain in psychiatric patients, <b>Michael Spencer</b></p>	<p><b>Parallel Session B4</b>  <b>Neuropathic pain in malignant disease: time for focus and clarity</b>  <i>Chair: Paul Farquhar-Smith</i></p> <p>Novel developments in the scientific basis of neuropathic pain in malignant disease: does translational data translate? <b>Kirsty Bannister</b></p> <p>How neuropathic is 'cancer pain'? <b>Paul Farquhar-Smith</b></p> <p>Chemotherapy induced peripheral neuropathy (CIPN) – a 'true' neuropathic pain in malignant disease, <b>Richard Gordon-Williams</b></p>
17:00 - 17:20	20	Coffee Break			
17:20 - 18:20	60	<p><b>Plenary Session 4</b></p> <p>Gender and inclusive pain management, <b>Katelynn Boerner</b></p> <p>Neurodiversity, <b>David Moore</b></p>			
18:20 - 19:20	60	<p align="center"><b>Welsh Pain Society: Education Evening</b></p>			

Legend		Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Poster Viewing Sessions
			Social Events	Education Workshops	Wellness
<b>Thursday, 5 June 2025</b>					
Time Slot	Duration	Plenary Hall (Meeting Room 1C)	Parallel Hall 1 (Meeting Room 2A)	Parallel Hall 2 (Meeting Room 2B)	Parallel Hall 3 (Meeting Room 2C)
08:00 - 08:30	30	Wellness			
		Plenary Session 5			
08:45 - 09:25	40	<b>Pat Wall Lecture:</b> Unravelling the role of autoantibodies in chronic pain: New insights and therapeutic avenues, <i>Camilla Svensson</i>			
09:25 - 09:30	5	Comfort Room Change Break			
09:30 - 10:40	70	<b>Parallel Session C1</b> Non-invasive sensory and neurofeedback modulation of cortical oscillations for chronic pain relief <i>Chair: Dr Christopher Brown</i>  Harnessing sensory alpha entrainment for pain modulation, <i>Christopher Brown</i> Neurofeedback for chronic pain spinal cord injury and fibromyalgia, <i>Aleksandra Vuckovic</i> Clinical implementation of alpha entrainment in real world settings, <i>Stephen Halpin</i>	<b>Parallel Session C2</b> Headache and facial pain – what is new? <i>Chair: Joanna Zakrzewska</i>  Identifying primary headache disorders, <i>Anish Bahra</i> Temporomandibular disorders: a jaw problem and a pain problem? <i>Chris Penlington</i> How does the epidemiology of trigeminal neuralgia influence the care pathway? <i>Joanna Zakrzewska</i>	<b>Parallel Session C3</b> Using population datasets to understand the impact of chronic pain: Identifying psychosocial risk factors and scalable interventions <i>Chair: Victoria Collard</i>  Embracing causal thinking in pain research with causal directed acyclic graphs, <i>Annick De Paepe</i> Exploring trauma's impact on high-impact chronic pain using Bayesian Causal Inference, <i>Payam Amini</i> The realities of using DAGS in established datasets: Defining concepts, matching variables and overcoming nuances in the data, <i>Anna Gibby</i>	<b>Parallel Session C4</b> Co-production: how it can be used to improve policy, practice and lived experience in relation to pain care <i>Chair: Mark Agathangelou</i>  The principles of co-production in action, <i>Nicola Hutchinson-Pascal</i> Broadening awareness and encouraging people with chronic pain to engage in research: Participatory film making, <i>Samina Begum &amp; Sarah Harrison</i> Personalised cancer care in the West Midlands – a co-produced approach, <i>Kafilla Munir</i>
10:40 - 11:00	20	Coffee Break			
11:00 - 12:15	75	Guided Poster Walk 2			
		Industry Satellite Symposia 3 (11:15 - 12:15)			
12:15 - 13:45	90	Lunch Break			
		Industry Satellite Symposia 4 (12:30 - 13:30)			
13:45 - 14:55	70	<b>Parallel Session D1</b> Sciatica - can we do better? <i>Chair: Cathy Price</i>  Decoding Sciatica: Understanding and Classifying Spine-Related Leg Pain, <i>Annina Schmid</i> Where does neuropathic pain medication fit in the management of spine related leg pain? <i>Jennifer Ward</i> Can we determine who benefits the most from epidural steroid injections for sciatica? Findings from the POISE cohort study, <i>Siobhan Stynes</i>	<b>Parallel Session D2</b> Focusing on painful diabetic neuropathy and fibromyalgia syndrome <i>Organizer: Jamie Glen Burgess</i> <i>Chair: Nicholas Fallon</i>  Mast cells are abnormal in fibromyalgia skin, <i>Jamie Burgess</i> Dermal vasculature in painful diabetic peripheral neuropathy, <i>Gordon Sloan</i> The transcriptional signature of painful diabetic peripheral neuropathy in the skin, <i>Georgios Baskozos</i>	<b>Parallel Session D3</b> Bridging perspectives to design effective care services for patients with persistent pain <i>Chair: Danielle van der Windt</i>  Understanding the population challenge of persistent pain: lessons from Wales, <i>Owen Hughes</i> Understanding the perspectives of patients and healthcare professionals: lessons from fibromyalgia, <i>Catherine Pope</i> Piecing it together: Designing effective care services for patients with nociplastic pain, <i>Rosemary Hollick</i>	<b>Parallel Session D4</b> A lifecourse approach to Women's Pain: exploring factors that impact pain across the lifecourse <i>Chair: Katy Vincent</i>  Dysmenorrhoea in adolescence and its influence on chronic pain as a young adult, <i>Katy Vincent</i> The experience of potentially painful procedures for those with neurodiversity, <i>David Moore</i> (Peri-)Menopausal hormonal changes and painful musculoskeletal conditions, <i>Fiona Watt</i>
14:55 - 15:15	20	Coffee Break			
		Plenary Session 6			
15:15 - 16:15	60	The neuroscience of pain: from brain circuits to clinical care, <i>Ben Seymour</i> Neuromodulation and pain intervention, <i>Daniel Clampi de Andrade</i>			
16:15 - 16:30	15	Poster Awards & Closing Ceremony
